

### **Amendments to the Claims:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

#### **Listing of Claims:**

1. (Currently Amended) A copier including:  
a scanner for scanning a surface of a document, the document having document content; ~~first coded data indicative of an identity of the document assigned and stored by~~  
an archiving means arranged to archive the scanned document in a computer system  
~~networked with the copier and user input marked on the surface as a digital version of the~~  
document;  
a ~~detector~~coded data generator arranged to ~~detect the first~~generate coded data and  
~~user input as the scanner scans the surface of the document so as to access a~~which identifies  
the digital version of the document identified by the first coded data stored by the computer  
~~system and so as to determine a user request defined by the user input; and~~  
a printer ~~adapted~~ for printing a copy of the digital version of the scanned document  
and for incorporating in said printed copy, ~~in accordance with said user request, document~~  
content and ~~second said~~ coded data indicative of an identity of the copy assigned and stored  
~~by the computer system.~~
2. (Cancelled)
3. (Cancelled)
4. (Original) A copier according to claim 1 wherein said copier is adapted to communicate with a server for allocating a unique identifier to each copy.
5. (Currently Amended) A copier according to claim 4 wherein data indicative of said unique identifier is incorporated into said ~~second~~ coded data and is printed in said printed copy.
6. (Currently Amended) A copier according to claim 1 wherein said ~~second~~ coded data is indicative of a plurality of reference points on said copy, the ~~second~~ coded data being printed to be readable by a sensing device operated by a user in order to identify the position of the sensing device relative to the copy.

7. (Currently Amended) A copier according to ~~claim 2~~claim 1 further adapted to transmit through said network interface second document data representing said copy of the document to enable said second document data to be stored.

8. (Original) A copier according to claim 7 wherein said second document data can be retrieved through said network interface to enable reproduction of said copy with both document content and coded data.

9. (Currently Amended) A copier according to claim 1, wherein the printer is further adapted to incorporate in said printed copy portions of said document content as scanned by the scanner not contained in said digital version of the document ~~in accordance with said user request determined from the scanned user input.~~
